Primary literacy is a subject surrounded by high-profile debates about policy and practice, but these are not always sufficiently informed by research evidence. In his lecture, Roger Beard traces the historical development of policy and practice in areas such as reading development, phonics, and writing, and pinpoints interdisciplinary research as the key to addressing complex educational issues that transcend the conceptual reach of a single discipline. Attention to the values of systematic

What is literacy An investigation into definitions of

Literacy now dominates the English curriculum, with a consequent loss of equilibrium between the whole (English) and its constituent parts (one of which is literacy), between the bigger picture and the details which it frames but which give it definition.
